---

## Seminar Schedule

7:00-8:00 am **Registration and Continental Breakfast**

8:00-9:00 am **Coupling Turf Management Practices with Environmental Stewardship: Managing Trade-offs**

*Dr. Bryan Unruh, University of Florida*

*Most research leading to turf management recommendations does not have an environmental impact assessment. Consequently, common management practices may lead to unintended consequences. Conversely, some misguided attempts to reduce the environmental impact of managed turf may in fact lead to other negative impacts. Recognizing the potential for trade-offs or unintended impacts when managing turf is important.*

9:00-10:00 am **Pesticide Selection Best Management Practices**

*Dr. Bryan Unruh, University of Florida*

*Most pesticide selection Best Management Practices (BMPs) in BMP documents are related to personal protection equipment and integrated pest management topics. These have little to do with actually selecting and using pesticides. Attendees will learn that pesticide product selection should be made based on a number of important factors including: Product effectiveness; Pesticides with minimal impact on non-target species; Minimization of pest resistance; Consider possible toxicological risk associated with pesticide exposure; and Evaluation of pesticide and site characteristics affecting off-site movement of chemicals.*

10:00 am-12:00 pm **Bermudagrass Forum**

*Moderator: Tommy Hewitt, Windermere Golf Club, Panelists: Berry Collett, CGCS, Sanctuary Golf Club, Asa High, Frederica Golf Club, Chuck Moore, The King & Prince Golf Club, Lucas Walters, Ocean Forest Golf Club.*

**.4 GCSAA Education Points Applied For - 4 Hours Georgia Pesticide Credits Applied For**

12:00 pm **Lunch**

1:00 pm **Shotgun Start - Best 2 net balls from a 4-person team.**

**Note: If you plan to participate in the golf event only, you must check in 1 hour prior to the shotgun start.**
